1. University of Taipei Guidelines for Admission of International Students (hereinafter referred to as "the Guidelines") have been established by University of Taipei (hereinafter referred to as "the University") in accordance with the regulation titled International Students Undertaking Studies in Taiwan promulgated by the Ministry of Education and University of Taipei Regulations to facilitate the admission of international students.
2. Admission of foreign students will be executed by UTaipei's Admission Committee based on the principles of fair, just and open. The establishment and operation of the Admission Committee is otherwise formulated.
3. An individual of foreign nationality who has never held Republic of China ("R.O.C.") nationality and who meets the following requirements is permitted to apply for admission.
  - (1) An individual who has never undertaken studies in Taiwan as an overseas Chinese student.
  - (2) An individual who has not received placement permission by the University Entrance Committee for Overseas Chinese Students during the same year of the application in accordance with the Regulations Regarding Study and Counseling Assistance for Overseas Chinese Students in Taiwan.     - (1) An individual who at the time of their application also holds dual R.O.C. nationality shall have never had household registration in Taiwan.
    - (2) An individual who before the time of their application also held dual R.O.C. nationality but no longer does at the time of their application shall have renounced their R.O.C. nationality with the approval of the Ministry of the Interior on a date at least eight full years before making their application.
    - (3) Regarding individuals mentioned in the preceding 2 Subparagraphs, they shall also meet the requirements of the Subparagraphs 1 and 2 of the preceding Paragraph.A foreign national who was selected by a foreign government, organization, or school to study in Taiwan in accordance with the Education Cooperation Framework Agreement, and who has never had household registration in Taiwan may be given exemption from the restrictions set out in the preceding two paragraphs if the Ministry of Education gives approval.

The six and eight year calculation period as prescribed in Paragraph 2 shall be calculated from the

starting date of the semester (Feb. 1st or Aug. 1st) as the designated due date for the time of study.

The term “overseas” as prescribed in Paragraph 2 is limited to countries or regions other than Mainland China, Hong Kong and Macau; the term “reside overseas continuously” means that an international student does not stay in the ROC for no more than a total of 120 days per calendar year. When calculating the number of consecutive years spent overseas, if the initial or final year of the period is not a complete calendar year, any time spent in Taiwan in the initial or final year must not exceed 120 days. However, time that a person has spent in Taiwan is not subject to this restriction and it is not counted when calculating how long they were in Taiwan in a particular year if the person has documentary proof that they:

- (1) Attended overseas youth training courses organized by the Overseas Compatriot Affairs Council or technique training classes accredited by the Ministry of Education.
- (2) Attended a Mandarin Chinese language center at a university/college of which international student recruitment is approved by the Ministry of Education and to which the total length of stay is less than 2 years.
- (3) Exchange students whose length of total exchange is less than 2 years.

4. An applicant of foreign nationality, concurrently holding a permanent residence status in Hong Kong or Macao, having no history of a household registration record in Taiwan and, at the time of application, has resided in Hong Kong, Macao, or another foreign country for no less than 6 years is qualified to apply for admission under the Guidelines.

The term “resided [...] continuously” in the preceding paragraph means that a person did not spend more than a total of 120 days in Taiwan in each calendar year. However, this restriction does not apply if a person can present documentary proof that any of the circumstances listed in Paragraph 5, Subparagraphs 1 to 4 of the previous point apply. The time that they spent in Taiwan in the ways listed is not counted when calculating the period of continuous residence referred to in the previous paragraph.

An applicant being a former citizen of Mainland China and holds a foreign nationality, having no history of household registration record in Taiwan, and at the time of application, has resided overseas continuously for no less than 6 years is qualified to apply for admission under these regulations.

The term “resided [...] continuously” in the preceding paragraph means that a person did not spend more than a total of 120 days in Taiwan in each calendar year. However, this restriction does not apply if a person can present documentary proof that any of the circumstances listed in Paragraph 5, Subparagraphs 1 to 4 of the previous point apply. The time that they spent in Taiwan in the ways listed is not counted when calculating the period that they resided continuously overseas referred to in the previous paragraph.

The six and eight years calculation period as prescribed in Paragraph 1 and Paragraph 3 shall be calculated from the starting date of the semester (February 1st or August 1st) as the designated due date for the time of study.

The definition of “overseas” given in Paragraph 5 of the previous point also applies, *mutatis mutandis*, to Paragraphs 1 to 4.

5. An international student applying to study at an educational institution in Taiwan in accordance with the provisions of the two previous points is limited to only applying once; if the students wants to continue studying in Taiwan, their applications shall be handled in the same manner as the admission procedures for domestic students, except for the following circumstances:

  - (2) An international student, who has applied to study at a university/college, senior high school, junior high school, or an elementary school in Taiwan in accordance with the Regulations Regarding Study and Counseling Assistance for Overseas Chinese Students in Taiwan, but stayed in Taiwan for less than a year and withdrew from school or lost student status, may apply to study in Taiwan again, but is limited to only applying once.

International students who are dismissed from the educational institution after admission due to behavior issues, poor academic performance or a conviction under the Criminal Law may thereafter not apply for admission under this regulation. If the aforementioned situation proves to be true after investigation, the University shall withdraw the student's admission or dismiss the student.

6. The number of international students that the University may admit is limited to an additional ten percent of the number of local students approved for previous academic year by the Ministry of Education. The number of international student admissions shall be incorporated into the total admission figure and be reported to the Ministry of Education for appraisal and ratification.

However, academic credentials earned from institutes or branches established in Mainland China by foreign schools shall require public notarization in Mainland China and be verified and examined by an institute established or appointed by, or through a private agency commissioned by the Executive Yuan.

  - (4) Others as required by the respective departments, institutes, degree programs.
  - (5) Two Recommendations (including one from a Chinese teacher or one that states the applicant's Chinese and English proficiency).

When reviewing an international student's admission application, if any of the documents specified in Subparagraphs 2 and 4 of the preceding paragraph have not been authenticated by an overseas mission, or by an agency established or designated by the Executive Yuan, or by a private organization commissioned by the Executive Yuan, and the educational institution has any doubts about them, it may request authentication by an overseas agency. If documents that have already been authenticated raise any doubts, the educational institution may request examination of the documents.

An international student who submits any certificate or document as part of their application for admission to an educational institution that is found to be forged, fabricated, or that has been altered in some way shall have their enrollment eligibility revoked. If the student has already registered and begun classes, their registration as a current student shall be cancelled and they will not be awarded any certification whatsoever regarding their related academic undertakings. If any such circumstances are first discovered after a student has already graduated, UTaipei shall revoke the former student's eligibility to graduate and shall require any degree already awarded to be returned and shall rescind it.
